Dr. Griswold's nomination was declared snimous, whereupon he was escorted to he stand, and in an appropriate speech and set forth the sentiments which he promised would abide with him as a Sensor. They were manly and worthy of cu istrict. The Doctor reverted to his expe-iences in the South during the war, with he slave population, and gave it as his cor viction that they were worthy of, and had well earned the right of suffrage. The D ctor was followed by Col. Shurt-eff in a splendid speech. The Colone

Judge Humphreyville took the same poition and urged that the rights of the and plead for the union of the Republican party, which he considered as paramount to all other issues at the present time. At the close of the Judge's speech the following resolution was passed by the Convention with a unanimity that showed how fully it expressed their sentiments: ed, That we are in favor of the repeal of all laws, and parts of laws, which nake distinction between the inhabitants of this State on account of color; and th mendment of our State Constitution t

Excellent Suggestions for the Condu

EDITOR CLEVELAND LEADER: Onl T manbe samain far asymmining the Unio Army of Ohio for the contest to be decide s second Tuesday of October next. 1 000 to 8,000 electors who will vote th Union ticket if they vote at all, but who will fail to go to the polis unless an organsed effort is made to get them out.

A Union club should be organized it very township on the Reserve, with working committee of at least one in each chool district, and a thorough canyass of the voters in each district, with their poliical standing, should be made within the cext two weeks. Absent voters should b arged to make their arrangements to com me in time for the election. Those at me should be impressed with the importance of remaining.

If the counties of the Reserve wo unite in offering a prize of \$500 or \$1000 in the form of fixes, histories, biographics newspapers, books and other do to be won in the first instance by a count and then presented to the banner townsh of the winning county, on some fair bar to be fixed by the Union County Centra Committees of the several counties, would bring to the polls many hundr voters who would otherwise fail to be there In each township a complete alphabeti cal list of all the Union voters should be prepared before election day. All voters should be urged to vote in the forencon if possitle, and a committee should remain at the ballot box to check off the names as last as they vote, and in the afternoon those who have not voted as shown by the check ist should be sent for by a committee ap

pointed for that purpose.

Ten thousand dollars spent in mass meetings, demonstrations and speeches on the serve may change a few votes, but on ousand dollars on flags, books and door ints, offered as a prize on a fair basis, a fording a chance for every township on the Reserve to win the prize, will prove ten tion and bringing out the veters. An Insult to President Johnson, The Chronicle tells the following story: We hear that among the crowd of aplicants for pardon, who thronged the resident's mausion yesterday, was a man who had a letter to the President, from a distinguished politicism, to the following in America to Africa and importing others in their places, who shall serve under a sort of compensated apprentice system.

F. M. Stone, of Waltham, according to the Boston Post, is talked of by the Republicans as the successor of Mr. Gooch in Congress. The Springfield Republican mentions J. Q. A. Griffin, Major George L.
